EXPLANATION

A story of continuous growth...

Sinelco is your leading partner for professional hair and beauty products. But did you know about our Belgian origins? Our story started in Ronse in 1943, when we were making hairnets entirely by hand. Combs, scissors, razors and dressing gowns soon followed, as did a full range of gel nails, beauty products and makeup. Today, Sinelco offers **more than 2,500 products**. This wide and comprehensive range includes Sibel, and other major brands such as Ultron, Original Best Buy and Barburys.

Sinelco sells its brands to over 2,000 professional clients in more than 50 countries, and our headquarters are still located in Ronse, in the heart of the stunning Flemish Ardennes. Since 2009, Sinelco (turnover: €40 million) has been part of the US group Sally Beauty Holdings (SBH, turnover: \$4 billion), one of the global leaders in the professional hairdressing and beauty market. With the support of the group, Sinelco has increased its expertise over the years with **teams of experts in: product development, sourcing, procurement, marketing and sales.** This has enabled Sinelco to position itself in the international market as the chosen **partner for hair and beauty specialists.**

Finger on the pulse

Thanks to its decades of experience in designing and distributing **professional products** for hair and beauty, Sinelco has vast expertise in the sector. Sinelco works solely with manufacturers that meet the highest quality standards and have a keen eye for the latest trends in hairdressing and beauty. All products sold by Sinelco are **tested in the salon by a panel of international hair and beauty specialists.** The feedback from these users is an essential aspect of the continuous improvement of our range.

80 YEARS OF HAIR & BEAUTY INNOVATION

Let us develop your brand!

Thanks to our experience in product design, we can develop your own brand for you. You can rely on our **product teams and our large portfolio of approved factories with total peace of mind**. Sinelco is your trusted partner for bespoke brand development, based on your requirements.

Strict adherence to regulations

The manufacture of hair and beauty products is extremely complex and regulated. All products must meet strict requirements, not only in terms of quality, but also in terms of legislation. This includes product **safety, composition, and performance**. At Sinelco, we have a dedicated regulatory team that keeps a close eye on legislations requirements and updates. We have processes in place to make sure we offer you compliant and high quality products.

1940

A VISIONARY
IDEA

In the starting blocks

Family man Albert Denhaerynck founds BVBA Denhaerynck in 1943 to manufacture hairnets.

1950

EXPANSION

... from small business to full- scale manufacturer

In 1952, shortly after the Second World War, the family moves production to a larger facility in Oudenaarde.

1960

CHANGE

Denhaerynck becomes Prosibel

The product line expands to include combs and hairdressing capes under the brand name Sibel, changing to Prosibel in 1964.

1990

GROWTH

Prosibel goes international and becomes Sinelco Int.

In 1997, Prosibel acquires its main French competitor Nelson: Bob Tuo Prosibel/Nelson becomes Sinelco International.

Customer service takes pride of place

The unrivalled quality of our products is only one of the reasons hair and beauty professionals are so enthusiastic about working with Sinelco. Our excellent service, both during and after sales, is also what makes Sinelco our customers' first choice.

- I An **easy order process**: by phone through the customer service centre, via a representative or through the order system on the online shop.
- I After delivery, Sinelco provides **an excellent after-sales service**.

Optimum traceability

In the hair and beauty sector, Asia is a global producer. For this reason, Sinelco has a **team of experts in the region**. This team works hand in hand with the **independent quality control agencies** that carefully verify the quality of the products. It also supports Sinelco's Europe team with supplier relations: pricing advice, establishing delivery terms, questions relating to quality, approval of pre-production samples, and obtaining the required certifications.

Smart buying policy, quick deliveries

To be able to deliver to its customers throughout Europe quickly, precisely and efficiently, Sinelco has an **ultra-modern warehouse** with an unrivalled organisation and operating method! With our optimised purchasing policy, we ensure that we have the right quantities available of all our products.

Did you know that Sinelco chooses **sustainable** solutions for its **transport**? Most of our products come in recycled and re-usable boxes, and plastic void fill is reduced to the bare minimum. However, Sinelco's environmental ambitions go even further than this. We are developing solutions to attain low-carbon logistics and increasingly green transport.

2000

MOVING
FORWARD

**... from family
business to
American holding
company**

In 2002, Ultron is born. In 2006, Sinelco International returns to Ronse. In 2009, Sinelco is absorbed by American company Sally Beauty Holdings. The company launches its new E-shop platform.

2010

INNOVATION

**Two new
product lines**

With the E-shop proving a success, Sinelco International continues to innovate. In 2010, two new production lines are launched: beauty and furnishings.

2020

EXPERTISE

**... and
continued
growth**

Sinelco makes a move towards greener products, with this range only set to expand going forward...

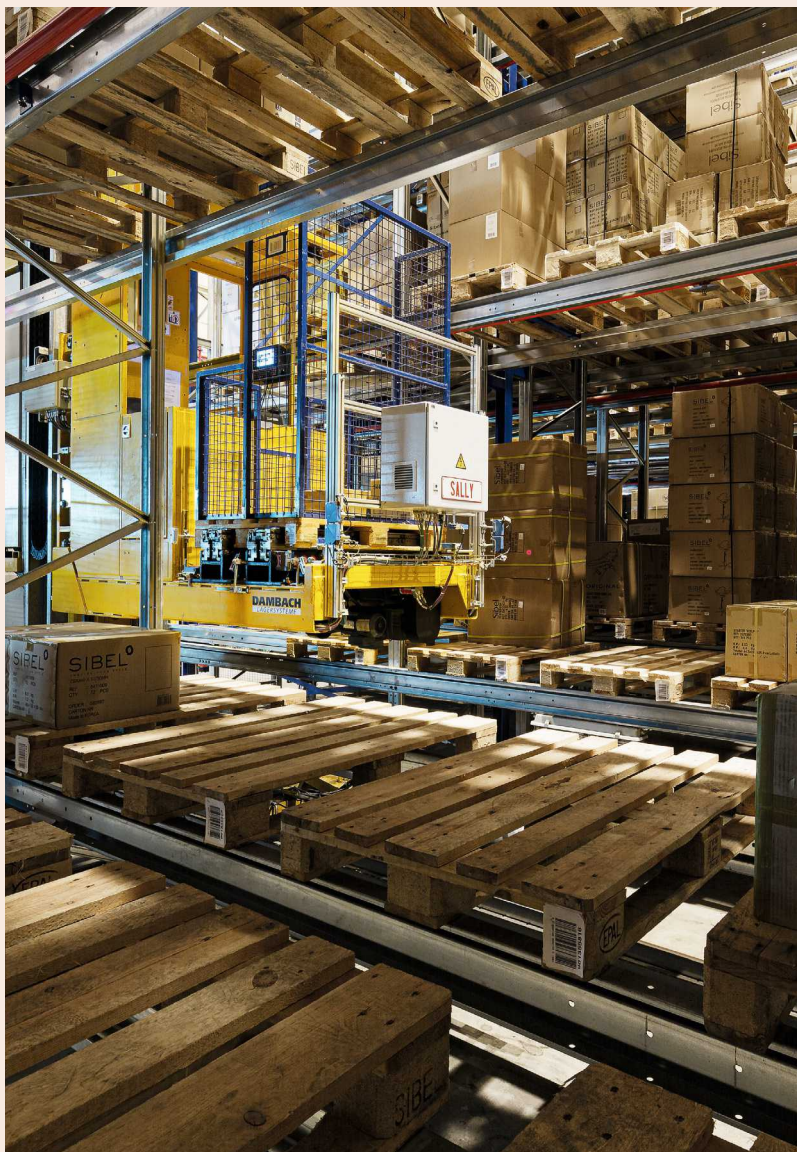

Sinelco brands move with the times

Our limited editions show that Sinelco keeps its finger on the pulse of new hair and beauty trends, from consumer behaviour and styles (colours, shapes, fragrances, textures) to packaging trends and ingredients.

But it doesn't stop there. Sinelco's marketing department develops campaigns to support our brands and boost your sales: **regular promos, digital marketing campaigns** and **incentives**. After all, your success is our success!

Sinelco goes for green

When developing a product, our product managers look into what can be done to make it more sustainable: **our keywords here are Reduce, Reuse, Refill and Rethink**. Sinelco works proactively to minimise its environmental impact by treating raw materials with respect and by opting for products that are less energy-intensive. This means FSC packaging, packaging made from recycled plastic or aluminium, refillable packaging and more. Everything is critically examined to see whether it fits with a sustainable future. Sinelco's catalogue already contains many **eco-design products** and this range will undoubtedly grow in the future. In the catalogue, the products that are environmentally sustainable are marked with a **green dot**.

Sinelco

OUR BRANDS

ultron
it's in your hands

High-tech design, well thought-out ergonomics and comfort designed for professional use. Ultron's innovative electrical appliances meet professional hairdressers' highest expectations. The brand stands for quality and durability. In 2022, Ultron is celebrating its 20-year anniversary and has launched a new slogan for the occasion: "It's in your hands". **This slogan ties in with the brand's values: cutting-edge technology developed by genuine experts. Ultron is the first choice for hairdressing appliances.**

NOTUS DELUXE - DIGITAL BRUSHLESS HIGH-TECH HAIRDRYER

Brushless
2000
Watt

Ionic

Introducing the Notus Deluxe Digital Brushless High-Tech Hairdryer: A testament to European elegance and eco-conscious innovation. This sleek and elegant hairdryer boasts a powerful yet energy-efficient brushless motor, ensuring rapid drying and offering an outstanding professional quality experience. What truly sets the Notus Deluxe apart is its cutting-edge TFT screen, providing real-time feedback on heat, speed, filter cleaning, running time, and energy consumption. This innovative feature empowers you with precise control over your hairdrying process, allowing you to cater to your clients' specific needs with accuracy and efficiency. With digital precision, you can customize your haircare experience with ease, while the lightweight and ergonomic design ensures your comfort during use. Our commitment to sustainability is showcased through sourcing from local European suppliers, eco-friendly materials, and a short supply chain. Elevate your styling game and create a memorable salon experience with the Notus Deluxe.

- longlife brushless digital motor (10,000 proven hours running time)
- energy saving
- ergonomic handle
- filter cleaning warning
- TFT-screen for customer feedback
- instant cold shot button
- 25 customisable speed & heat combinations

VENTI - BI-IONIC AC CLASSIC HAIRDRYER

Professional Ultron Venti bi-ionic hairdryer with long life and powerful AC motor. Thanks to the positive and negative ion generator, you can customize your brushing according to the type of hair of your client. Negative ions = for normal or thicker hair: to straighten the hair and give a fine shine and smooth look. For thin hair, just push the ionic switch to positive ions: pump up the volume and keep it longer in shape with beautiful shine. With the Ultron Venti you'll achieve the best of both worlds. Moreover it's a hairdryer with an impressive air flow, which makes it the perfect partner for a successful day in the salon!

- 2 speeds
- 3 temperatures
- ion generator switch: negative/neutral/positive:
- +ION = volume and shine to the hair
- -ION = smoothness and shine to the hair
- instant cool air button
- set 2 nozzles included: small (6,3 cm) and large (7,7 cm)
- only 74,2 dB
- max. temperature: without nozzle: 103,2°C / with large nozzle: 111,6°C / with small nozzle: 116,5°C
- previous name: Iconic 3650

SCIROCCO

900 Watt

After washing and rinsing hair you won't need to use a towel anymore, but Scirocco with a comb and nozzle. Eliminates all the water from hair and the foam residue that hides under the scales (not rinsing with hot/warm water could produce similar results). Restructures the scales leaving hair shiny, silky and just slightly damp, completely eliminating the use of a towel. At the end of the day there won't be mountains of towels to wash. Very often perms lose tone due to poor rinsing when acid and water between the rollers (especially behind the back of the neck) prevent the fixing agent from giving strength to the perm. None of this will happen anymore with Scirocco. After developing the perm, dry as usual not using the towel to dab the hair dry but using the suction nozzle on the rollers. It will suck up all the water and any acid residue leaving the roller damp and clean. Now you can safely fix the perm.

OSHUN - COLD VAPOUR STYLER

This innovative new straightening tool has an optional cool vapour function which delivers a blast of cooling mist onto the hair as you work. The cold vapour means less passes are necessary which reduces damage, adds moisture and shine and reduces frizz. 4 temperature settings mean it is suitable for all types of hair. Can also be used to create curls.

- Ceramic coated floating plate < 45x100 mm >
- Removable water tank 6,5 ml
- Non slip soft finish
- Auto switch off 60 minutes

ALAZ - ULTRASONIC MIST STRAIGHTENER

A revolutionary professional hair straightener with optional cool mist function to provide the hair with extra hydration, which results in a glossy shine and healthy hair. The Ultron Alaz straightener also protects the hair from the heat and therefore prevents breakage.

How does it work ? The ultrasonic technology transforms the water into cool mist which creates shine on the hair. The cool mist is distributed centrally over the plates, so it reduces the heat of the plates, hence you retain the hair's health and hydration. The cool mist function can be turned on or off, so you can also style without steam. With the 5 different temperature settings, you can choose the correct temperature adapted to the type of hair. The straightener slides easily through the hair and delivers super soft hair with remarkable shine.

- ceramic coated and tourmalin floating plates < 30 x 110 mm >
- cleaning brush
- water reservoir (7 ml)
- previous name: Mystic Cool
- ultrasonic mist on/off slide switch

STRAIGHTENERS

ultron

IKU - DUAL INFRARED IONIC STRAIGHTENER

Professional hair straightener with infrared and ionic technology creates amazing shine and is healthier for the hair. The infrared heat penetrates directly into the cortex of the hair, heating it from the inside-out. This helps to maintain the hair's natural moisture balance and prevents overdrying. Thanks to the ionic technology, static electricity will be excluded and quickly helps to eliminate frizz in a gentle manner. With its super fast MCH heating element, a temperature of 180°C is reached in only 20 seconds. The digital LCD display with touch control allows you to set up the right temperature (120°-230°C).

- dual infrared and ionic plate technology
- ceramic floating plates with infrared technology
- floating titanium plates
- ionic generator
- digital LCD display
- adjustable temperature (120°-230°C) setting by touch control, with (un)lock function
- auto shut-off function (after 1 hour use)
- super fast MCH heating element: 180°C in 20"
- previous name: Mach Plus

SIRONA - AIRFLOW STYLER

The Ultron Sirona airflow styler brings you the newest innovation of combining heat styling with a blast of cool air so you can create long-lasting looks with just one tool! The Sirona is ergonomic & lightweight, and the clip is easy to use, to create both straight & curly hairdos. The 360° air vents around the barrel instantly cool & set curls while styling, similar to the “cool shot” function on hair dryers. The results are quick and long lasting curls. The titanium floating plates distribute the temperature evenly and the temperature is adjustable from 140°-220°C to match any hairtype.

- air cooling technology
 - 360° air vents cool & set curls
 - titanium floating plates
 - matt soft touch finish
 - 5 heat settings: 140° - 220°C
 - auto shut off in 30 minutes
- LED indicator light

ARINI - CONICAL CURLING WAND

The Ultron Arini digital curling wand creates beautiful and glamorous wavy curls thanks to the conical barrel shape. The barrel diameter goes from 31 mm at the widest part to 19 mm at the tip which is why the curls are so beautifully shaped versus a conventional barrel. The 3 m professional length cord gives plenty of freedom of movement whilst working around the head. There are 14 temperature settings from 80°-210° so the stylist can select the exact temperature required for every type of hair.

- conical barrel
- Ø 19-31 mm
- matt soft touch finish
- digital temperature selection (80° - 210°C)
- digital screen display
- safety stand
- 3 m 360° swivel cord
- 68W
- auto shut off in 1 hour

JACA - OVAL CURLING IRON

With an oval barrel for a more natural curl result. The oval barrel has a diameter of 25-32 mm which will create big curls and soft waves. The ergonomic spring activated clamp is easy to use and the protective cool tip provides a safe place to hold the hair in place while you curl. The 3 m professional-length cord allows for freedom of moment. The temperature can be set from 80°-210°C, so the stylist can choose the correct setting for each hair type.

- oval barrel with clamp
- Ø 25-32 mm
- matt soft touch finish
- 30 sec fast heat-up
- rotating temperature dial (80° - 210°C)
- LCD display
- safety stand

OYA - 360° ROTATING CURLING IRON

Easily create stunning curls with the Oya! This revolutionary curling iron uses a rotating technology to create perfect curls in no time at all. Two fingers are all that is needed to rotate the silicon grip 360°. The tong twists the strand of hair around the ceramic/tourmaline ionic iron. Hair takes on shape and shine in the blink of an eye. Simplicity and ease-of-use for the professional hairdresser! Our Ultron Oya comes in a case that turns into a heat-resistant mat, highly practical when in use. Highly recommended innovation for professionals!

ALPAN - 360° ROTATING VOLUMIZING CURLING IRON

In addition to the existing Oya curling iron, Ultron also has a multi-functional styling iron: the Alpan. Enjoy different working methods with only one device. Because this new Alpan has all the benefits of the Oya, but with added product assets to create great and durable volume at the roots of the hair, even to make a fringe with volume. It's not necessary to wear heat resistant gloves, because there is a heat-resistant handle and tip. Easy to handle with its ergonomic rotating technology to create curls in no time. Two fingers are all that is needed to rotate the silicon grip 360°. A must-have for the professional hairdresser and a time-saver in the hairdressing salon. Handy bag that turns into a heat-resistant mat included.

ENKI - CORDLESS TAPER CLIPPER

Ideal for precise and steady cutting. This professional taper lever ensures 5 steady level locking adjustments with infinite variable control. Its revolutionary cool blade technology keeps the blade cool to touch. The Smart-clip technology ensures the clipper senses blade resistance and revs up the motor speed therefore clipper will never drag or stall. With up to 4 hours autonomy thanks to the long lasting lithium battery. The Extreme has a longer cutting range - our blade opens more, from 0.5-3.5 mm and we have included 10 comb attachments ranging from 0,5 to 2,5 mm. The blade can also be zero gapped with the included tool, offering and extra cutting length. The smart LED display shows remaining time and the clipper is ultra quite - with noise level below 62 dB. Can be used with cord or cordless.

- 2 speed levels (6000-7000 RPM)
- taper lever: 5 adjustments
- LED display
- lithium battery
- 4 hour autonomy, 3 hour charging time
- 62 dB
- 6,5W
- titanium ceramic blade: 0,5-3,5 mm
- includes: set of 10 attachment combs (size 1/2, 1, 1-1/2, 2, 3, 4, 5, 6, 7, 8), charging base & adaptor, screwdriver, cleaning brush, oil, blade adjustment tool & protector

ZEMLYA - ERGONOMIC HIGH-DEFINITION CLIPPER

The Zemlya professional high definition clippers are one of the most ergonomic clippers on the professional market. With their flat body design, they combine real comfort with superb performance. The practical flat ergonomic form offers a different grip compared to traditional hair clippers, and therefore reduces wrist and hand fatigue. It also enables more precise movements and makes cutting a lot easier. The special shaped type of cutting head accumulates a lot less hairs between the blades. The operating time is longer thanks to the sustainable battery and the Japanese high power motor. Thanks to the intelligent quick charging system and the remarkable LFP battery, you only need to charge for 1,5 hours.

- metal fixed blade & stainless steel cutting blade (46 mm)
- 5 adjustable cutting lengths: 0,8 / 1,1 / 1,4 / 1,7 / 2 mm
- combs set included (3/6 mm and 9/12 mm)
- 2 hours autonomy, 1,5 hour charging time
- Japanese high power motor (7000 - 7800 RPM)
- superior safety LFP battery (LiFePo4)
- 2,6 m cord - corded / cordless option
- intelligent charging system: charging (= red light) / fully charged (= green light)
- compatible charging base with Zemlya trimmer (ref: 7712001)
- included: 2 reversible combs (3/6 mm and 9/12 mm), adapter, charging socket, cleaning brush, oil burette

TEOX II

The cutting blades are made of stainless steel, so the lifetime of this trimmer is very high. It has a “U” shape blade with an HRC level of 60-61. But the most special feature of this trimmer is the adjustable comb attachment, with rotating dial. Easy to use, and many more settings available than with ordinary attachments. This trimmer also gives freedom of movement as you can use it with or without the cord.

- blade with 60-61 HRC hardness
 - cutting length app. 0.3 mm
 - adjustable comb attachment from 1.5-8 mm
 - waterproof IPX6
 - cordless or with cord
- 2.5h autonomy
 - 2h charging time
 - included: display base, small comb, oil, cleaning brush and detachable comb
 - 6000 RPM

CLIPPER OIL

Lubricating spray. This lubricant increases the life and performance of your clippers - daily use is highly recommended.

- previous name: Long life

		PRICE €
7039601 / P000548		11,85

For an optimal performance of your device, ensure that the appliance has been thoroughly cleaned after use, any hair has been removed and that any cleaned parts have been thoroughly dried. Applying oil to the blades themselves is important. Not only does this help to keep them running smoothly, oiled blades also remain sharp for much longer. Lubricants help the blades cut smoothly and prevents friction that causes overheating. It facilitates clean and precise cuts.

PROFESSIONAL HAIRDRESSER SCISSORS

CISORIA

QUALITY STAINLESS STEEL

The mission of Cisoria is to offer every stylist exceptional comfort, enabling them to perfect their creations in total freedom. Right from the start of the production process, their needs are taken into account. One of Cisoria's key aims is to ensure that the ergonomics of the scissors guarantee flawless handling and exceptional ease of use.

OFFSET SCISSORS BY CISORIA

NEW

GLAM SPARKLE

These beautiful ergonomic Offset cutting scissors have a convex shaped cutting blade, which allows the scissors to be used for slicing techniques. They offer a fixed finger rest to avoid any wrist fatigue. The scissors have a 0,1 % nickel proportion, as this helps the steel to strengthen the corrosiveness resistance, and the titanium coating has a trendy rose gold colour with a diamond effect fashion screw.

- cutting scissor
- right-handed

6600655 / P002449	5,5"	99,95
6600656 / P002448	6"	99,95

NEW

SERIES RBOE

This offset scissor combines perfectly beauty with functionality. The high quality, titanium coated SUS440C stainless steel is made up of one half rose gold and the other half is black with a silver marble effect. A black fashion screw completes the look. The convex cutting edge ensures a professional finish with all types of cutting and slicing techniques. The fixed finger rest and offset handle design ensures comfort while using over long periods.

OE550

The OE550 scissors are made for those who have a wrist or hand problem by using the wrong scissors. With its 360° rotative single swivel, they reduce fatigue and strain in the hand and wrist. These scissors are made with a revolving thumb handle. The handle rotates eliminating hand and wrist strain. Open grip reduces thumb travel.

SDV26

Double thinning scissors are scissors with teeth on both sides instead of having one straight blade. When cutting with normal thinning scissors (one blade with teeth and one straight edge on one side), there could be a visible line after they were closed. By using teeth on both blades, this line is not visible! You can turn the scissors in any direction on the way out of the section without worrying!

- thinning scissor
- right-handed

The colourful Duoline combs are manufactured from cellulose acetate sheets, a non petroleum raw material derived from natural plants. This range is therefore considered to be sustainable. Each side of the comb has its specific colour and the tips of the combs are rounded for a gentle feeling on the hair and scalp. They are antistatic and suitable for all hair types.

DUOLINE

Cutting comb made of cellulose acetate sheets, a sustainable source. Each side of the comb has its specific colour and the tips of the combs are rounded for a gentle feeling on the hair and scalp. They are antistatic and suitable for all hair types.

POM

Polyoxymethylen (POM) is a frequently used material for industrial applications because of its hardness. It is also used as a replacement for metal, as it has the great advantage that it does not oxidize. These combs are therefore known for their durability and proven performance by hairdressers.

BAMBOO

From natural origin and sustainable, that is the Sibel Bamboo combs range! Bamboo is an alternative for regular wooden combs to avoid deforestation and to help save our climate. It is also very recommendable for hair and scalp thanks to the softly rounded tips. Bamboo combs are 100 % antistatic and ultralight.

SIBEL[®]

D-MÉLI-MÉLO

The D-Méli-Mélo brush features flexible bristles at three heights to ensure optimal detangling without damaging the hair. The plastic bristles allow this brush to be used on wet or dry hair, or to apply products during hair treatments. The D-Méli-Mélo brush can be held in two ways: either in the palm of the hand or by using the ergonomic handle, for a total comfort in use. Above this all, the brush is antistatic and very easy to clean.

ILLUMIPRO

The Illumipro brush differentiates with its innovative heat-reactive technology! The wavy nylon bristles are injected with a heat-reactive feature which makes the bristles colour red when they are heated (+ 60°C). The red colour of the bristles indicates when the brush has the perfect temperature for styling. When the bristles return to black, with or without the help of the cold burst button, the brush is cooled down and the styling is set. The result is a long-lasting hair style with maximum volume starting at the roots. The ultralight vented handle avoids sweating and has a soft touch finishing.

PROFOLD

The ceramic barrel of the Profold brush is extra long with a length of 12,5 cm! This allows the brush to distribute the heat more evenly over the hair strands. The antistatic nylon bristles have a tourmaline and ion coating to add extra shine and smoothness to the hair. The most practical generation of brush handles now has a foldable sectioning pin (4,2 cm), which can never be lost. The rubberised anti-slip finish of the handle ensures a real comfort in use. Achieve the ultimate blowout with Profold!

THERMIC BRUSHES

SIBEL^o

CERAMICPRO

The Ceramicpro brush features a unique ceramic barrel that is half covered with boar and nylon bristles and half uncovered. The ceramic barrel without bristles actually functions as a curling iron, as it holds the heat during the brushing and transfers the heat back to the hair for a faster and more efficient styling. The combination of nylon and boar bristles hydrates the hair cuticles and adds a wonderful shine to the hair. The special grip handle has an anti-slip function and holds a sectioning pin (7,7 cm).

AZUROSE

The attractive Azurose brush has antistatic wavy nylon bristles for a better grip and can be used for each hairtype. The aluminium barrel has a ceramic coating that holds the heat longer and the wide hexagonal air holes in the barrel optimize the airflow for an excellent styling result. The handle has a rubberized finish and offers a great grip during each brushing.

THERM

The Therm brush has an aluminium barrel that will fill with hot air during the blow-drying of the hair. The vented holes in the barrel create an air circulation, ensuring even heat distribution to the hair strands. The barrel heats up like an iron, and can therefore be used to tame even the thickest of hair. This thermic brush is perfect for intensive use in hairdressing salons for all hair types thanks to its nylon bristles.

PROCOP

The Procop brush features one of the newest technologies on the market! The barrel and the wavy nylon bristles both have a copper coating. Copper is an optimal heat conductor and will distribute the heat faster and more evenly than other coatings. Copper also holds an antimicrobial function and has a high heat resistance. This results in a time-saving, high heat styling with an amazing volume. The ultralight vented handle avoids sweating and has a soft touch finishing.

SILICON GEL

The Silicon gel thermic brush stands out with its two unique features. The first one is the tourmaline coated barrel that, compared to a ceramic coated barrel, produces more negative ions to heat up faster and to spread the heat more evenly over the whole barrel. The other one is the silicon gel handle that offers an amazing grip and comfort during the styling. The antistatic nylon bristles allow the use of this brush for all hairtypes.

DECOPAD

The Decopad oval brush has a great combination of boar and nylon bristles and can therefore be used for all hairtypes. The mixed bristles combine the best of both worlds: detangling the hair while adding a glossy shine thanks to the distribution of the natural oils in the hair. The cushion pad follows the shape of the scalp and therefore minimizes scalp damage or hair breakage. This small version is recommended for shorter hair.

			PRICE €

The unique Gaspro brush is a real lightweight thanks to the hollow ergonomic handle. It is very comfortable in use and has an elegant copper-colour finish.

GASPRO

The ball-tipped nylon bristles combined with the soft cushion pad are gentle on the hair & scalp and are perfect for detangling and styling the hair with a smooth and shiny finish.

GASPRO

The wet-type bristles of this brush are small nylon bristles with comfortable ball-point tips for a smooth brushing of the hair and a gentle feeling on the scalp, which is even more enhanced by the soft cushion pad. This brush can be used on both wet and dry hair.

STYLING SPONGES

SIBEL[®]

STYLING SPONGE

Styling sponge for woman and men with natural coily, afro-textured hair. Each sponge has 2 different sides with different shaped holes to create different results in just a few minutes without damaging the hair and keeping a natural look. The smaller holes are suited for shorter hair, the bigger holes will produce larger curls and coils if you have long hair. The sponge works best with slightly damp hair. The material is very easy to clean.

LIGHT SILOUETTE

Shaving brush with high quality badger hair for an amazing shave. The pure badger hair ensures a soft feeling on the skin.

0002317 / P003248	Ø 2,1 cm	PRICE € 53,95
-------------------	----------	------------------

GREY MARBLE

Shaving brush with pure badger hair.

0002320 / P003250	Ø 2,1 cm	PRICE € 59,95
-------------------	----------	------------------

TECHNO ELEGANCE

Shaving brush with extra long synthetic bristles, which creates a fuller brush head for rich lather. The synthetic bristles are waved so they can hold more foam during the shave. Synthetic fibers are also easier to clean than natural bristles and after drying, no product residu is left.

0002321 / P003251	Ø 2,1 cm	PRICE € 27,05
-------------------	----------	------------------

TECHNO WALNUT

Shaving brush with synthetic bristles, which are thin & tapered to simulate the real badger hair, for a soft feeling on the skin. The extremely soft hairs make sure the foam doesn't splash drops when in use.

0002322 / P003252	Ø 2,1 cm	PRICE € 27,05
-------------------	----------	------------------

TECHNO POLYGON

This shaving brush with synthetic bristles offers an alternative to traditional, natural animal bristles. Synthetic bristles offer almost identical elasticity and softness to authentic badger bristles. Furthermore, the brush is highly suitable for men with a sensitive skin as synthetic bristles retain fewer bacteria and are more hygienic to use.

0002312 / P003247	Ø 2,1 cm	PRICE € 28,85
-------------------	----------	------------------

TECHNO TRAVEL

This travel version of the classic shaving brush with synthetic bristles is perfect on the go. The material is very light. For easy storage and protection of the brush during traveling, the brush can be unscrewed from the handle and put inside the handle.

0002323 / P003253	Ø 2,1 cm	PRICE € 22,85
-------------------	----------	------------------

CODE CHERRY

Shaving brush with hog bristles, which is a badger imitation. The bristles are more firm and sturdy and they also scrub the skin lightly as you apply the lather.

0002302 / P003245	Ø 2,1 cm	PRICE € 13,85
-------------------	----------	------------------

CODE ERGO

Shaving brush with hog bristles, which is a badger imitation. The bristles are more firm and sturdy and they also scrub the skin lightly as you apply the lather.

BUTTERFLY

From the moment it was invented in 1904 up until the early 1970s, these safety razors were the preferred shaving tool for men. These days they are more popular than ever as this type of razor offers numerous benefits: the handy blade holder with its butterfly closure in combination with its weighted handle provides a balanced and sturdy feel when using it. By twisting the handle the butterfly mechanism opens, allowing you to easily and safely replace the blades between two shaves.

- blade not included

HAIR BUILDING FIBERS 25GR

The Hair Sculptor hair building fibers are cotton-based and blend with the natural hair to create a thicker, fuller look. Hold the dry hair apart to create as much surface area as possible. The use either the handy sprinkler bottle or spray applicator (ref: 8903111/P001286) to apply the fibers to the hair. After application, tap lightly with your fingertips or comb gently to distribute the fibers. Then fix them with the Hair Sculptor Fixing Spray (ref: 8980526/P001767).

HAIR BUILDING FIBERS

HAIR SCULPTOR

by SIBEL[®]

Want to look younger
and have fuller hair in
an instant?

Hair Sculptor is the
ideal solution for restoring
volume to fine hair.
In addition, root touch-
up sprays subtly yet
effectively cover up grey
hairs and regrowth. The
Hair Sculptor products
by Sibel offer a choice of
natural colours for both
men and women.

E-APPLICATOR KIT

The Hair Sculptor e-applicator allows fast and easy spray application of hair building fibers. Very convenient handling. Fine and even distribution of the fibers. Easy and space-saving to store. The hair fibers are not included in the kit! The container holds 25 g and can be (re)filled with hair fibers from the Hair Sculptor refill sachets (refs. 8903101-106).

- Kit contains:
- 1 e-applicator spray head
- 1 empty, refillable bottle
- 1 back-up container
- 1 hairline guide
- 1 USB charging cable
- 1 instruction leaflet

FIXING SPRAY 100ML

The Hair Sculptor fixing spray has been scientifically developed to enable the hair building fibers to adhere optimally to thin hair. Spray at a distance of 30 cm from the treated area. The fine spray fixes the fibers and ensures a natural look. Thanks to the spray, the fibers adhere firmly to the hair and are resistant against wind, rain and sweat. So you don't have to change your active lifestyle when you use Hair Sculptor! The fixing spray lasts all day. The hair building fibers and fixing spray can be removed by washing the hair with shampoo.

PRICE €
8,65

8980526 / P001767

MANUAL SPRAY APPLICATOR

The Hair Sculptor manual spray applicator fits with the Hair Sculptor hair fiber bottles (remove the sprinkler mesh first!). It allows to easily target and spray the hair fibers into specific areas of the hair, for a more precise, fine/even distribution. Use the Hair Sculptor hairline guide (ref. 8903112/P001282) when working around the hairline.

PRICE €
22,25

8903111 / P001286

HAIRLINE GUIDE

The Hair Sculptor hairline guide helps to eliminate any unnatural straight lines along the hairline. It gives a soft, natural look and prevents hair fibers from falling onto the forehead. For a more precise, defined result, use with the spray applicator (ref. 8903111/P001286) to target the hairline.

HIGHLIGHT STICK-UP FOILS

The plastic sheets of high-lighting strips can be rinsed with warm water to enable them to be reused repeatedly. They are therefore very economical to use.
The self-adhesive side includes a reinforced border which is thicker and stronger. This allows the paper to be attached to the hair more quickly. In addition, the crystal clear side allows the chemical processes to be easily inspected.

Get more out of your colour preparations with the Color Economiser. Allows you to use 40 % less product than required. Perfect, effortless mixing every time, and the resulting colour mix is better oxygenated: more gloss and improved cover for white hairs. The Color Economiser makes the mix softer and adds volume, making it easier, quicker and in particular less costly to apply the colour preparation.

COLOR ECONOMISER - KIT

Kit contains:

- 1 electrical mixer
- 1 stainless steel metal swirl - for non-oxidative colour preparations
- 1 plastic-coated metal swirl - for oxidative colour preparations
- 4 tinting bowls
- 3 tinting brushes

				PRICE €

FOAM CURLERS 60 MM

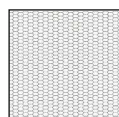

Foam curlers are a great way to curl the hair without heat. These rollers are strong and dense with a secure snap lock feature. The soft foam ensures comfort during beauty sleep, never pinching or creating pressure points.

SEPARATING CLIPS

TEASER CLIP COMB

Multi-purpose clip comb, suitable for colouring, cutting / trimming, flat ironing. With rat tail for easy sectioning of the hair. All-in-one tool for increased speed and efficiency. The tight spring of the clip provides a sure grip for improved accuracy and control. Lightweight, chemical- and heat-resistant.

8450215 / P004211	< 21.5 cm >	PRICE € 5,85
-------------------	-------------	-----------------

ASSISTANT BRUSH CLIP

Innovative type of sectioning clip - simplicity and functionality in design. Use as a normal hair sectioning clip or to "store" multiple sections of hair at the same time by using the brush teeth. Ideal for wet hair applications like hair colouring or hair treatments. Clip made of durable plastic, easy to clean.

9330001 / P003636	< 11.5 cm >	PRICE € 1,90
-------------------	-------------	-----------------

BIRD

These non-metal clips serve for all purposes and are great for the sectioning of hair during haircuts or stylings. The strong grip ensures that the hair stays securely in place. The non-metal clips are long-lasting and will not rust. For all hair types.

		PRICE €
9341001 / P001797	< 14 cm >	6,15
9341000 / P001796	< 10,5 cm >	5,15

DOLPHIN

Clips especially designed for thick hair, they are flexible for an extra strong hold of big volumes of hair. Each clip has a pointed end to create sections in the hair.

9341003 / P001117		PRICE € 4,89
-------------------	--	-----------------

COLORPROOF

Stain-resistant separating clips that offer an excellent grip in the hair thanks to the silicone anti-slip band. The extra strong spring provides a solid hold even after long-term use. For medium to fine hair.

		PRICE €
934091002 / P000848		8,65
934091000 / P000912		8,65

CLIPAGRIP

Separating clips with silicone anti-slip handle to ensure an easy use. For normal to fine hair.

		PRICE €
934090002 / P000847		6,45
934090000 / P000911		6,45

BEST GRIP SECTIONING CLIPS

Sectioning clips with patented auto-adjustment system: perfect fit and zero gap – securely keeps the hair in place.

- Non-staining with colour cream
- Non-slip handle
- Ideal design to avoid hair creases and indentation marks
- High temperature, acid & alkali-resistant material

TPU ELASTICS

TPU 125

Set of elastic hair bands made of TPU material, a special kind of rubber that avoids pulling out the hair when removing the elastic hair bands. They are relatively softer than regular elastic bands, keep very well their flexibility and don't break easily.

4441416 / P000629	2,49

NATULASTIC

Use these non-metal elastic bands for a snag-free, all-day-long result. Choose the natural colour of your hair for an invisible look. Each small box contains 5 pcs of Natulastics bands and the displays comes with 12 extra boxes for refill, 2 pcs in each colour shade.

	PRICE €
6600540 / P002895	71,95

SPIRADELIC

A nearly-magical ponytail tie that delivers a powerful, headache-free hold without a trace. Wrapped around the hair, its hygienic, non-soaking material distributes uneven pressure around the circumference of the ponytail, holding tresses with just the right amount of pressure without causing headaches, split ends, or breakage. Each small box contains 3 pcs of Spiradelics in a natural colour.

PRO WASH

Washing powder. An ordinary detergent usually is not sufficient to thoroughly clean hairdresser's textiles. Therefore, look out for detergents which have been specially designed for the hairdressing salon. These quality products are powerful without bleaching the colors of the textile and they also provide an anti-static effect. The textile fibers do not stick together and neutralise static electricity.

BOBTUO®

THE MILCOUP®

- Clean and precise working base without any risk of snagging
- Watertight seal around the neck to protect it without feeling tight around the neck
- Eliminates the bulges caused by jumpers, garments with collars or towels, and lends itself to all body shapes

Made in France

CUTTING COLLARS

BOB TUO

It was Bob Tuo who first dreamed up the cutting collar, back when he was Director of Internships at the INAC in Paris. He named his first model the Milcoup and an entire industry was born. This original design offers a great solution to the twin problems of ensuring client comfort when cutting or colouring and of preventing combs and scissors from snagging on towels and gowns. Its unisex geometry means perfect protection for all types of neck.

STYLIST

This Bob Tuo Original Milcoup® Stylist is the ultimate tool for the professional stylist. The weighted front of the Bob Tuo Milcoup® ensures the collar stays in place and that it makes a good seal around the neck. The PVC material is easy to clean with a canvas layer on top that gives it a finer feel than a pure PVC collar and is better at resisting nicks from scissors. Just wipe it down with soapy water to get rid of hair and residual chemicals.

				PRICE €
3031900 / P002135	31 x 45 cm	Short	●	31,85

SCHOOL

This Bob Tuo Milcoup® stands for French quality: comfortable, hygienic and easy to use. The weighted front of the Bob Tuo Milcoup® ensures the collar stays in place and that it makes a good seal around the neck.

	PRICE €
3010100 / P002132	27,85

Milcoups are truly indispensable in the hairdressing salon. Patented and invented by Bob Tuo, Milcoups are used by the principle leaders and the whole of the profession throughout the world!

- Real comfort for the hairdresser, providing a clean, precise base for the cut.
- Easy to clean.
- The rotation of several Milcoups is preferable to ensure perfect hygiene.

BOB TUO

NEW

BOB TUO

The well-known Bob Tuo towels are all about comfort and guarantee user friendliness for both the client and the stylist. With their professional quality, these towels are a cut above the rest: resistant to bleach, peroxide and chlorine and they will always retain their shape. They are ultra absorbent and easy to maintain. Bob Tuo towels continue to be very efficient in use even after many years. Their bright colours make them suitable for use in any interior.

- The towels have fine loops so your combs and brushes do not get caught
- By using special high-quality colorants, the towels maintain their colour, even after multiple washes
- They can be washed at 90° and the towels are chlorine resistant too
- To order minimum 12 pieces

VEGAN WAX

vegan product

Discover our new VEGAN depilatory waxes. Their formulas are without ingredients from animal origin, without preservatives, without colorants, without perfume and enriched with Tamanu Oil. Tamanu Oil has properties that help moisturize your skin. Ingrown hairs often become inflamed and irritated. Because the Tamanu Oil has anti-inflammatory properties, it may have a beneficial action to reduce irritations caused by ingrown hairs. The Tamanu Oil used in our Vegan Waxes are from sustainable source.

7410307 / P000340	Sensitive skins	1 kg	Green	12	21,65

Hard wax is also known as stripless wax because it doesn't require strips to be removed. This wax is always heated before use and is applied in a thicker layer than soft wax in the direction of hair growth. As it becomes colder and harder, the wax shrinks and wraps the hairs and then becomes a strip itself. It's then pulled off in the opposite direction of growth.

- doesn't require strips
- it's applied thicker than soft wax
- hard wax is normally used in the bikini area or for facial waxing
- it needs to be heated in a wax heater or microwave
- it needs to harden fully before being removed otherwise it will crack or won't remove the hair
- it's known to be able to remove shorter hairs than soft wax
- after the skin is cleansed a pre-epilation oil is applied to the skin. With soft wax you can use powder

HOT WAX

Soft wax is also known as strip wax because it will always require strips to be removed. The wax is applied in a thin layer in the direction of hair growth. It is pulled off by using waxing strips in quick movements in the opposite direction of the hair growth. There are different forms of soft wax such as heated, cold and pre-made strips.

- soft wax always requires strips
- soft wax is normally used on large areas like the legs, chest, back, ...
- it's applied in a thinner layer than hard wax and doesn't need to harden before being removed of the skin with strips
- after the skin is cleansed you can use powder to the skin before spreading wax
- it's easier to use than hard wax so soft wax is better to get down the technique of using strips first before moving on to stripless wax

SUGAR PASTE

Sugar paste is a natural hair removal paste which is based on an ancient recipe from the Middle East. It has a very good dermal compatibility and it makes it a safe and effective way to remove hair without causing any irritation. It removes the roots of the hair and dead skin cells, and also promotes circulation in the skin and reduces the regrowth of hair. Some sugar pastes require strips to remove, others don't.

EPIL° HAIR PRO
BY SIBEL

TRADITIONAL SUGAR PASTE

Traditional sugar paste is made mainly from natural ingredients, which form a malleable mass. It is suitable for all skin types, and can even be used for efficient and painless waxing of shorter hair (2-3 mm).

			PRICE €
7430007 / P000318	500 ml	24	16,85
7430008 / P000319	1 L	12	27,05

1. Heat the pot with the sugar paste (35 to 37°C). Using a spatula, put a small ball of sugar paste in your hand.
2. Apply the paste manually to the areas to be waxed, against the direction of the hair growth.
3. To remove the sugar paste, pull off the strip, in the direction of the hair growth.
4. Repeat this procedure with the same piece of sugar paste until the hair is fully removed.

COLD WAX

Cold wax is a type of soft wax that is always used with strips. The strips are mostly pre-made. Hair removal using cold wax does not require any specific equipment. It is suitable for use on every one, especially clients who are sensitive to heat or who have blood circulation problems.

EPIL° HAIR PRO
BY SIBEL

COLD DEPILATORY WAX FOR THE FACE

Epil°Hair Pro depilatory wax strips are characterised by their easy use; the formula is made up of mainly vegetal matter which make it harmless and allows for a longer interval between depilations as it weakens hairs at the root.

		PRICE €

The roll'on small cartridge makes applying wax precisely and effectively easy thanks to its applicator. This wax cartridge has been specially developed for waxing eyebrows and upper lips. The mini Roll'on heater is used to heat the wax in the Roll'on small cartridge (7411160 - 7411165). Once heated you can use it straight away. It is the easiest and most user-friendly treatment available when it comes to facial hair removal, especially when combined with the ready for use facial hair removal strips. Please read attentively the user manual.

FACE SPATULAS

Set of 50 disposable wooden spatulas for hot wax. The small rounded ends make these spatulas ideal for use on the face.

7410513 / P001304	< 11 cm >	PRICE € 1,90

SKINCARE TOOLS

Using a blackhead extractor tool is one of the easiest, quickest ways to remove blackheads. They are often used in professional facials to quickly extract a large area, and are much less damaging to the skin than squeezing. Particularly good for nose blackheads – the metal loop can be pressed into the side of the nose where no finger can get to.

SIBEL[®]

DAHLIA

Washable Pore cleanser. The Dahlia Pore cleanser has a very strong suction power, thanks to its strong motor. Clean your face and clear black heads in an assured way. You can immerse the device completely in water for a guaranteed hygiene.

- This device is a battery-operated, 2 x AA batteries not included.

CAMELIA

This unique facial steamer offers 3 different functions : hot steam, cool mist and warm humidifier. The hot steam opens the pores of the skin for a deep cleansing; the cool mist shrinks the pores for a tighter skin and the warm humidifier moisturizes and soothes the skin. The Camelia facial steamer works silently and produces a consistent nano-ionic mist.

- Only use demineralized water

7333013 / P003300 Ref UK: P004028 / 733301395

PRICE €
91,95

DEMINERALISED WATER

Demineralized water. Always use demineralized water to ensure that steam appliances work the way they are supposed to.

SIBEL[®]

FACIAL STEAMER

Facial steamer with ozone lamp and a special built-in basket for aromatics and herbs. Mobile, compact arm for aromatherapy comprising a built-in pad for added essential oils.

- Only use demineralized water.

7333011 / P002424 Ref UK: P003996 / 733301195	PRICE € 219,95
---	---------------------------------

ASTER

Nano ion salon hot facial steamer. Compared to normal steam, nano-ionic steam can penetrate the upper layer of the skin more easily. It is an effective way to moisturize the facial skin, relieve dryness and provide your skin relaxed, gentle and smooth condition. A tepid and gentle temperature (+/- 40°C) of the steamer can unclog pores and removes dirt and leftovers of make-up. The steamer can generate full-powered steam under 50 seconds, which makes moisture replenishment more effective.

- Only use demineralized water

7333014 / P003301 Ref UK: P003988 / 733301495	PRICE € 131,95
---	---------------------------------

A face steamer opens the pores so that the skin can breathe. The steam cleanses the skin deeply. Spots and blemishes - caused by dirt and oil clogging up pores - don't stand a chance. The steam also revitalises the skin and improves blood circulation. Result: a smooth, fresh and clear skin.

AXELLE

Portable or in -salon professional hot towel steamer. Holds up to 12 Take Care facial towels. No pre-soaking of towels needed and they are ready for use in 10 min. Ideal tool for beauty treatments. Includes bamboo wooden tweezer.

PARAFFIN

The hot paraffin treatment acts as a mini-sauna. As a result of the heat, pores open and nutrients are better absorbed.

Paraffin:

- softens the epidermis;
- improves the elasticity;
- stimulates the circulation of blood;
- strengthens sub-cutaneous tissue;
- and softens the skin around the nail.

In other words, a real treat for dry and chapped hands. Clients with painful muscles and joints caused by rheumatism and arthritis will also really appreciate this treatment.

The new Sibel gels have the latest UV/LED formulas, especially developed to make the manicure treatments shorter. They require shorter curing times and less filing work, which makes the treatment more pleasant for the customer and more effortless and time consuming for the nail stylist. All Sibel gels cures under UV and LED light. The gel manicures hold for 3 to 4 weeks. Each gel from Sibel has its unique quality and performance. The Builder Gels are flexible but still strong enough to build a perfect manicure. The Builder Gels with covering colours are ideal to camouflage nail imperfections. The 3-in-1 Gels are easy to use and for every starting nail stylist. The Sculpting Gels and Fiber Gel allow even more creativity in nail construction, nail art and nail extension.

SIBEL^o

ACID FREE PRIMER

0002662 / P003279	3,09
0002666 / P003266	3,09

Perfect false eyelashes in five simple steps:

1. Take one of the eyelashes out of the box using tweezers.
2. Cut the eyelash to size. Hold the eyelashes with the tweezers against your eyelash line and cut the excess at the outer corner of the eye.
3. Apply the eyelash adhesive. Place a few drops of the adhesive on the lower edge of the eyelashes.
4. Glue down the eyelash. Using the tweezers, bring the false eyelashes as close as Possible to your own eyelashes. Press on carefully and allow 30 seconds for the adhesive to dry.
5. Apply the rest of your make-up.

EYELASH EXTENSIONS

INDIVIDUAL EYELASHES

Besides strip eyelashes you can also use our individual lashes for an extremely natural look. The individual lashes blend nicely into the natural lashes and are applied using lash adhesive which can be easily removed. Packed in pairs.

- Choose your preferred length, 5 mm - 9 mm - 13 mm.

TABLE MAGNIFIER LAMP WITH LED

Table lamp with a heavy foot that gives an excellent stability to the lamp, especially when manipulating the lamp. The LED lights are dimmable so you can create the appropriate light brightness and adapt to the different treatments or needs. The magnifying glass has a diopter 5, which offers even to a table lamp an excellent view for professional use.

- Dioptre 5
- Diameter 12 cm
- Dimmable LED light
- 36 LED
- 8W

CLAMP LED MAGNIFYING LAMP

Magnifying lamp with clamp. This magnifying lamp uses 36 SMD LEDs. The LEDs are very robust and have a longer life cycle than standard LEDs. As they have no lens, the resulting angle of light is much wider than usual. The magnifier has a diameter of 9.5 cm, 3 dioptre and is mounted onto a flexible 36 cm arm. Maximum width clamp: 5 cm.

GENERAL

	Weight		Volume		Volume
	Featherlight		Pieces per packaging		Minimum purchase: 10 pieces
	Dimensions		Suitable for travelling		Magnetic
	Rub the gel between your hands to warm it up		Clap over the hair		Meets the European EN standard EN 170
	Hook included		Hairproof		CE: European conformity
	Disposable		+10 ml free		Diameter
	1 year warranty		2 year warranty		5 year warranty
	Length		Spray can be used from all different angles		Micro spray
	Mirror enlarges 3x		Silent		Silent
	Suitable for 'Bi Color'		Suitable for 'Classic Tradition'		Suitable for 'Universal'
	Rotates 360°		Rotates		Products per box

MATERIAL

	INOX - stainless steel		Polyurethane - PU (alternative for leather)		Polyurethane - PU (alternative for leather) - Croco print
	Hard plastic (polyvinylchloride)		Polypropylene plastic		Polypropylene plastic + Acrylonitrile Butadiene Styrene (plastic)
	Polyamide		Polyoxymethylene		Nylon
	Glass		Polystrene		Chrome
	Thermoplastic polyurethane		Polyethylene		100% cotton
	80% cotton, 20% polyester		Silicone		Porcelain
	Acryl		Latex		Latex free

ICONS EXPLANATION

 Does not contain nickel	 Human hair	 Plastic (polyethene terephthalate)
 Polystrene plastic	 Plastic (ABS: acrylonitril butadiene styrene)	 Acrylonitrile butadiene styrene + Polyamide
 Medium density fiberboard	 Wood	 Metal
 100% strong polyester, water repellent	 100% strong polyester, water repellent, breathable and easy to maintain	 100% strong polyester
 60% pvc, 40% polyester	 70% polyester, 30% PU	 70% polyester, 30% PVC
 50% viscose, 50% polyester	 70% PE, 30% Aluminium	 Snake print

ELECTRICAL APPLIANCES

 Infrared functioning	 Revs per minute	 Manuel timer
 Digital timer	 Digital display	 Cool Mist Function : Provide the hair with extra hydratation, which results in a glossy shine and healthy hair!
 1.5 hours of charging time, 2 hours working time	 Total amount of visible light, radiated in all directions by the lightsource	 2 speeds / temperatures
 2 speeds	 2 temps	 Cutting head : Stainless steel
 Cutting head : Titanium	 Cutting head: Titanium/ Ceramic	 Cutting head: Carbon
 Wattage	 Variable cutting length	 Fixed cutting length
 Temperature	 Temperature in time	 Cord length
 Cord length + 360° rotatable	 Plate dimensions	 Button
 Amount of lamps	 Amount of LED lamps	 Amount of LED lamps
 Pedal	 Requires LED lamps	 LED lamps optional
 Requires UV lamps	 Requires LED and UV lamps	 Diffuser dots
 Requires AA batteries	 Requires AAA batteries	 USB rechargeable
 Reversible plates length	 Auto off in 90 minutes	 Blade cooling system

Rotating butterfly arms

Airflow

SCISSORS AND STYLING RAZORS

Tempered steel: 420 C - for extra solidity and maximum durability

Japanese stainless steel 440 C

Japanese stainless steel AUS8

Stainless steel 440 C

The teflon grooves guarantee a smooth and durable functioning of the pivot

Rockwell rating of the steel

For right-handed users

For left-handed users

Removable fingerrest

Concave cutting scissors

Curved razor blade

30 scissor teeth

Removable fingerrest

40 flat scissor teeth

Scissor with 35 teeth - slanted blade

Use a half two-sided blade (Feather of Sibel)

Use a full two-sided blade (Feather of Sibel)

COMBS

Antistatic

Unbreakable comb

Carbon comb

Polypropylene comb

Natural rubber comb

Bamboo comb

Cutting length: 8 mm

BRUSHES

7 rows of bristles

2 rows of 3 bristles

Pneumatic brush

Aluminium/ceramic brush cover

Ceramic / tourmalin brush cover

Aluminium comb

Ionic action for smooth, shiny and static-free hair

Handle: wood

Handle: ABS

Handle: antislip

Handle: extra grip

Handle: PP

Handle (rattail shape): wood

Handle: silicone gel

Handle: softtouch

Wild boar bristles/nylon bristles

Wild boar bristles

Synthetic pins

100% synthetic hair

Polybutylene terephthalate

Metal pins

ICONS EXPLANATION

Silicon pins

Barrel: Keratin + argan coated

Waterproof

GLOVES

Universal gloves - one size

Universal gloves - one size

TEXTILE

With fastening ribbon

With buckle

With fastening hook

With press buttons

With hook and loop closure

With elastic closure

Cape with pockets

Apron

Simple cape

Shoulder cape

Extra long peignoir

Peignoir with pockets

Kimono with pockets

Suitable for short hair

Suitable for long hair

Suitable for extra long hair

Towel with fine loops (so your comb does not get caught)

Non woven or knitted

Airlaid

Waterproof

Not waterproof

Does not require ironing

Extra soft

TRAINING HEADS

Rubber plug - fits all clamps

Angle of implant

Hair density

LUGGAGE

Luggage band in nylon

Shoulder strap included

Numbers lock

Zipper

FURNITURE

1 year warranty

2 year warranty on the pump

5 year warranty on the pump

5 year warranty on the tap

Aluminium base

Nylon base

ICONS EXPLANATION

Medium pump

Large pump

Snake pattern

Maximum load

No reservoir

Adjustable basin

Volume of reservoir

Length of hose

DEPILATORY AND HAIR REMOVAL

No strips required

Strips required

Beeswax

Hair tweezers with slanted tips

SKINCARE

Suitable for the face

Suitable for the body

NAILS

Nail file grit

Suitable for natural nails

Suitable for artificial nails

EYELASHES AND MAKE-UP TOOLS

C-lashes: strong lift

J-lashes: natural lift

The brush's bristles are made of goat hair

The brush's bristles are made of sable hair
